

# THE BIG APPLE IS UNION BUILT GREEN

## by the Members of Plumbers Local 1

PLUMBERS LOCAL UNION NO. 1 is actively involved in the education of our members so they can contribute to, and participate in the next phase in the development of our economy, the Green Building movement. The UA Mobile Green Training Trailer is one component of that effort.

Sustainable development involves the simultaneous pursuit of economic prosperity, environmental quality and social equity. We are currently working in cooperation with the U.S. Green Building Council to develop a Green Construction Skills training program specifically for construction workers. We have also partnered with the City University of New York's Center for Sustainable Energy to develop a solar hot water training program sponsored by the New York State Energy Research and Development Authority.

# THE FUTURE IS GREEN

*and Plumbers Local 1 is ready to build it.*
