

Local Union Portal

Secure login to access your Local Union documents and reports

NEW FEATURES

The UANPF.org website has been updated to include an Estimate Calculator for members to utilize when doing their retirement planning!

Get your member Pension Estimate online

Easily generate a personalized estimate of your retirement benefits online using our secure portal. Get instant calculations based on your membership data, service credits, and current contribution history. Explore multiple retirement scenarios to find the best option for your needs.

Enhance Document Upload experience

The Upload page now shows your recent uploads in tabs (Recent 24 hours and Last 5 Days) so you can quickly see what's already been submitted. After uploading for a member, their information stays pre-filled so you can submit additional documents without re-entering the same details. Once a document is processed by the Fund Office, the delete option is automatically locked to protect processed records.
